

Leicester, Leicestershire and Rutland, Integrated Care Board November 2025
Medicines Switch Programme

Leicester, Leicestershire and Rutland, Integrated Care Board, continually review prescribing choices to ensure patients receive the most cost effective, evidence-based treatments available to make the best use of valuable NHS resources. Below gives details of medicines switches planned for November 2025.

This information will ensure Community Pharmacists can manage stock and have the relevant information to counsel patients and answer queries.

Some switches involve a formulation change or a change in the way the medicine should be taken. Please check that patients and carers understand how to take their new medicine.

Original medicine	Switch to
Haloperidol 0.5mg tablets	Haloperidol 200micrograms/ml oral solution sugar free
Melatonin liquid, including Ceysto® brand	Adaflex® tablets
Sertraline liquid preparations – unlicensed	Sertraline concentrate 100mg/5ml in line with MHRA guidance
Donepezil orodispersible tablets (including brands)	Apozyl ® orodispersible tablets

Thank you for your continued support.
